

Feedback

The Feedback activity allows you to create and conduct surveys to collect feedback. Unlike the Survey tool, it allows you to write your own questions, rather than choose from a list of pre-written questions and non-graded questions. The Feedback activity is ideal for course or teacher evaluations.

How is a Feedback set up

1. In a course, with the editing turned on, choose **Feedback** from add an activity or resource
2. Give it a name and if required, a description
3. Expand the other sections to define the settings you want, in particular Question and Submission settings and what to display after submission
4. Click **Save** and display and from the **Edit** questions tab, **add** question drop down, and then add the questions you want

How does it work

Teacher View

Teachers see the **Settings tab** as well as an Analysis tab and Responses tab. Results may be exported to a spreadsheet program

From the **Analysis tab** they see a report of the aggregate of responses, including a graphical display of answers to multiple choice questions

From the **Responses tab** they see individual responses in detail.
